

REPURPOSING MFG IN CA FOR COVID19 (CMTA - 4:00 p.m., April 22, 2020)

ABLE TO REPURPOSE	CA REGION / CITY	WHAT THEY CAN MAKE / ARE MAKING	Contact Name
<b>April 16-22, 2020</b>			
DxTerity	California-based	DxTerity recently launched a COVID-19 corporate testing solution focused on getting California back to work. DxTerity's corporate solution is uniquely positioned to address the immediate needs of California based industries, assisting them in proactively addressing COVID-19 workplace uncertainty and employee anxiety so everyone can get back to work safely.	Brett Swansiger
Proactive Diagnostics	Thousand Oaks	Developed clinical technology that would enable widespread and accurate blood tests which will be needed to screen the CA and US populations for seroimmunity to COVID19. Looking for partners to help commercialize the technology. His approach and IP are unique.	Reuven Duer
USGI Medical	San Clemente	CNC Machine Shop capable of producing metal and plastic parts for Ventilators, Respirators, or other medical supplies and devices. ISO Class 8 cleanroom assembly. QC inspection. Warehouse space available, sterile packaging services, coordination of sterilization processes. Engineering support available.	Chris Earley
<b>April 10-15, 2020</b>			
MS Ultrasonic Technology Group	Michigan, but with operations in CA	Looking to connect with government agencies to provide equipment to manufacture ventilator components, mask, hair nets and clothing for first responders.	Gary Silva
<b>April 8-9, 2020</b>			
Amethyst	Thousand Oaks	Some of the capabilities they have in their facility, which might be helpful, include recombinant protein design, cloning, production, purification, and analytical characterization, small-molecule synthesis and purification, skin-care formulation and small-scale fill-and-finish, some electronics/instrument design, as well as related capabilities. They have many different resources and companies within their facility..	Greg Cauchon
Express Shirt Printing	Benicia	Can make face masks and safety vests from t-shirts.	Kathy Guziejka
IEM Innovation Engineering Modular	Los Banos	Can repair ventilators or any electronic equipment, also to manufacture any type of electronics PCB's, assembly finish goods etc.	Monica Herrador
Milano	Merced	Engineering design and guidance. Machining with CNC.	John Dabelich
<b>April 3-7, 2020</b>			
Architectural Plastics	Petaluma	A plastics manufacturing company that has already distributed 20k to Kaiser. They can do 20k masks a week ... soon 40k masks a week. Their masks can also be sanitized with alcohol repeatedly.	Blake Miremont

Pilot Freight Services	Sacramento	Distribution and transportation services throughout the region, state, and nation.	Kathy Manjarrez
<b><u>March 28-30, 2020</u></b>			
1st Class Laundry	Union City	Industrial laundry that can process up to 40,000 pounds of laundry per day. Have a variety of equipment and willing to help in any way. Plastic film packaging sealers, Washing Machines Steam Boilers, 26' Box vans with lift gates and drivers available. Can purchase bags that will dissolve in the wash, so linen can be put into the bags at the point of origin. Can then pick these bags up and disinfect the laundry to title 22 specifications. Normally service hotels and airlines as primary business so have lost 90% of customers. Workers ready to help	Jeff Schlagel
AMPAC Fine Chemicals LLC	Sacramento	Pharmaceutical grade chemicals	Aslam Malik
Big Valley Molds	Lodi	Can help with Injection Molding & Mold Making	Ken Wallace
Dumont Printing	Fresno	Sourcing materials and making facing masks currently.	Susan Moore
FMC Technip/Schilling Robotics	Shingle Springs	Oil and Gas Field Machinery and Equipment Manufacturing. TechnipFMC has a full machine shop in Shingle Springs and HQ in Davis where they can perform electro/mechanical assembly & integration. Facility can be retrofitted to assemble products in cells.	Austin Wilkinson
FTR CNC	Sacramento	CNC Machine Shop can support manufacturing of ventilators, respirators, CPAP machines	Pete Oxenham
GameBreaker	Westlake Village	Have access to a supply chain for making U.S. certified masks, and can have them produced and shipped quickly. Already done a deal with Hawaii. They also can do some other safety equipment.	Michael Juels
Garner Products	Placer	Machine shop to support mfg of ventilators, respirators, CPAP machines	Michelle Stofan
GNB Corporation	Sacramento	Valve manufacturer for the production of COVID test kits.	Ken Harrison
Greene Soloutions	El Dorado	Machine shop to support mfg of ventilators, respirators, CPAP machines	John Grover
Griffin Electric	Sacramento	Electrical Contractor. Capable of supporting construction of emergency hospitals, etc.	Dan Griffin
Kratos Technologies	Folsom	Carbon Fiber Composites mfg/Large Defense Contractor of Unmanned Aerial Drones	Mel Bailey
Master Industries Worldwide	Santa Ana	They make bowling equipment but have now completely repurposed and are currently making exam gowns, face and surgical facemasks	Donna McDermott
Microform Precision	Sacramento	Sheet metal work manufacturing. Capable of working with respirator/ventilator, CPAP mfrs.	Tim Rice
PacFul	Sacramento	Owner of vacant warehouse space for use	Vince Lepera
PrePlastics	Auburn	Working with local groups to provide molded frames for face shields.	Katie Kuhl
Pride Industries	Roseville	Pride Industries will be laser cuttng facesheids. Also interested in support mfg of ventilators, respirators, CPAP machines thru contract mfg	Tony Lopez
Pro-Lok	Orange	Southern California manufacturing facility could potentially produce components needed for emergency items. Their CNC mills and lathe can work with materials such as aluminium, brass, stainless steel, ceramic, plastic, titanium to produce critical parts.	Adam Duberstein

ProPlas Plastics	West Sacramento	Plastics manufacturer. Has developed a face shield that can be laser cut without foam. . Working to ramp up production to 20k/day. In discussions w/ Sutter Health.	Jeramie Jones
Quality Craft	Magalia	Biomedical and custom injection molding	Jeff Fuller
Springboard	Sacramento	Plastics for medical testing. Currently working for Test kit mfr, Cepheid to produce plastics for test kits	Glen Shrigley
Wrex Products	Chico	Plastics extrusion manufacturer can help.	Jim Barnett
<b>March 26-27, 2020</b>			
Bishop-Wisecarver® Corp	Pittsburg	Complex Assemblies and Kitting- Up to 40k feet of available contract manufacturing production floor space, Kitting and sub-assemblies to full turnkey solutions, Purchase order consolidation, Vendor management. Quality traceability reports available, Flexible, scalable workforce, and Single prototypes to thousands per month. Motion Products - Linear guide bearings, Linear actuators & motion stages, Rotary & curvilinear motion guides, and Automated motion systems. Fabrication and Production - Precision CNC machining, milling, boring, turning, laser engraving. Product finishing operations - Painting, anodizing, plating, coating, heat-treating, hardening, and annealing Sheet metal fabrication. Waterjet and laser cutting up to 60"x120". Quality inspection certification, CMM reporting, hardness testing	Kelly Walden
Encore Sheets	Los Angeles	A Michigan-based company, but with these available resources we want to extend a helping hand to all in need.	Jason Martinez
Hogan MFG	Escalon	Mainly manufacture transit ramps for the disabled, but have the capability to make just about anything metal. They don't work with plastics or other materials, but if there is any need for metal parts for medical devices or hospital support, they can contribute.	David Brimlow
IDD Process & Packaging, Inc.	Moorpark	IDD can fabricate pretty much anything that is needed in stainless steel or aluminum. Can also do control panel equipment manufacture with UL certification.	Jeff Gunn
Irvin Products	State of Michigan	Primarily an automotive supplier with the bulk of business being automotive seat cover sewing. Also support non-automotive sewing business in the fields of other transportation, webbing based sewing, and other contract sew requests. Have 4 cut and sew production facilities with 3,000+ sewing machines, 23 CNC cutters and supporting labor ready to help with manufacturing needs. Capacity will vary as we navigate these unprecedented times. A Michigan based company, but with these available resources they want to extend a helping hand to all in need.	Lindsey Gates
Neiman & Company	Van Nuys	Custom job shop (signage) & licensed contractors with about 28 employees. In house work includes metals (all), wood, acrylics, glass. Have in house paint booth, digital printing to substrate capability, in house fabricators & assemblers. Right now, still busy, but we are prioritizing any orders for hospitals and medical offices.	Camile Carr-Ramirez
Merrills Packaging	Burlingame	Can make accessory parts. Can quickly make the face shields that are needed. Can help with thermoformed product, extruded product, injection molded product and also with machined aluminum needs. Can turn from design to manufacturing fairly quickly. Have capacity and can make local bay area deliveries. We have been working during this crisis. We are a ISO 13485 (medical) certified manufacturer.	Leslie Lopez

<b>March 24, 2020</b>			
Able Industrial products	Ontario	Will sign NDA's and do whatever they can to chip in. Have several capabilities that are needed in medical industry and have extra capacity. Between their Ontario, California and Tijuana, Mexico facility, they have the manufacturing capacity. <i>(Newly completed controlled environment for die cutting and laminating. Delta Mod Crusader Laser Rotary-a state of the art high speed rotary die cutting machine for challenging parts with high volumes, as well as 3 additional Delta Rotary Die-Cutting Machines Laser Cutting. Water Jet Cutting. Router Cuttin. Slitting Laminating. All aspects of die cutting. Clean Room Assembly)</i>	Gilbert Martinez
Advanced Manufacturing Workforce Development - Mark Martin	Bay Area	Working with a designer in Wisconsin who has been working on a face shield for medical providers. He's part of a design firm, and is working with a WI hospital and engineering school to develop this over the past week or so. <a href="https://www.delve.com/insights/face-shield-designs-to-fill-the-gap">https://www.delve.com/insights/face-shield-designs-to-fill-the-gap</a> Mark is working on trying to get this manufactured in the Bay Area also. Would like to talk with someone at the state who is dealing with supply chain issues around PPE, for a way to connect with relevant hospital systems to see who might be interested in purchasing such a face shield.	Mark Martin
Affordable Plastics	Ontario	They manufacture PET plastic bottles, from 4oz-6.5 Gallons in size. Already provide some essential items, but they have approx. 7,500 sq ft or so, that they would like to convert to making N95 masks.	Aldo Villalpando
Alom	Fremont	ALOM is a global supply chain management services and solutions provider headquartered in Fremont, CA. The company is ISO 9001 and ISO 13485 (medical device manufacturing) certified. ALOM offers secure warehouse and high-volume production/fulfillment capacity to rapidly configure and scale to serve pandemic response programs including electronics reconfiguration/testing, assembly, packaging, eCommerce order portals, fulfillment, and transportation/logistics. ALOM has solid relationships in place with suppliers across the country and around the world to source and procure materials.	Hannah Kain
Del West Engineering	Santa Clarita	Specialize in manufacturing small, precise parts. While they have lathes and mills, the significant percentage of business is for round parts, so turned/drilled on lathes or honed/ground on specialty equipment. Their machines can accommodate pretty much anything up to 24" across, but sweet spot, in terms of capacity are smaller items so 4" or less. Materials they commonly work with include aluminum, titanium, high strength steel, and nickel. Specialty is difficult to process materials up to and including intermetallic compounds and metal matrix composite. Current employee count is 126 workers. Until recently their factory has been running seven days a week, 20 hours a day.	Connie Sommer
FATHOM	Oakland	Launched an effort to bridge the medical community's shortage needs to providers who are able to directly help, quickly. The response to this campaign proves that our medical community needs the 3d community's help. <i>Connecting Industrial 3d Printing Manufacturing to Help the Medical Community</i> at link to the right.	
General Motors & Ventec Life Systems	National	General Motors and Ventec Life Systems, in cooperation with StopTheSpread.org, the nation's coordinated private sector response to COVID-19, are collaborating to enable Ventec to increase production of its respiratory care products to support our country's fight against the COVID-19 pandemic. Ventec will leverage GM's logistics, purchasing and manufacturing expertise to rapidly scale up production of their critically important ventilators and get them into hospitals as quickly as possible. GM will also continue to explore additional ways to help in this time of crisis.	IN PLAY
