

MAKING CA LEGISLATIVE AGENDA

“**Manufacturing Maker**” bills directly improve manufacturing competitiveness by removing barriers to operational compliance, long term investment, and/or talent acquisition. The following bills have been identified as Manufacturing Makers that will help keep California's manufacturing industry at the forefront of global leadership and innovation.

Workforce Development

***AB 23 (Burke) – Creating a Deputy of Business and Workforce Coordination with GO-Biz**

Creates a dedicated position within the Office of the Small Business Advocate to coordinate workforce development efforts that are crucial to California's manufacturing industry.

AB 48 (O' Donnell) – Bond to Fund CTE Education

Provides necessary funding to build California's pipeline of skilled workers.

***AB 1542 (Rubio) – Worker Training Program Tax Credit**

Establishes a tax credit for employer investments in training California workers with skills needed to adapt to changes in industries brought on by new technology and innovation.

Economic Development

***AB 1248 (E. Garcia) – Incentive Program for Manufacturers Revitalizing Communities with their Investment**

Establishes a program that allows local governments to enter into partnerships with small and mid-size manufacturers as part of their plans to revitalize and develop their communities.

AB 742 (Cervantes) – Creating the Office of Place-Based Economic Strategies within GO-Biz to Facilitate Opportunity Zones and Promise Zones

Creates a dedicated advocate to strategically expand California's use of targeted economic development programs.

AB 906 (Cooley) – Statewide Economic Development Plan

Requires California to develop a economic development plan that identifies hurdles and policy solutions that would facilitate growth and address challenges faced by strategically important California industries, like manufacturing.

SB 162 (Galgiani) – Extending Treasurer's SUT Program for Alternative Energy and Advanced Transportation Manufacturing

Extends the CAEATFA program that has been vital to the development of many California-based manufacturers creating innovative and next generation technologies.
